- Database Management: PostgreSQL
- Other Skills: Sales and Negotiation, Problem-Solving, Organization, Multitasking, Communication, Teamwork, Attention to Detail

Antonio Leskur

I'm a passionate programmer with experience in Python, Git, GitHub, HTML, CSS, SQL, and PostgreSQL. Coming from a diverse background, including hospitality, tourism, and business, I've discovered my true passion in programming over the last two years. My primary goal is to expand my knowledge and skills in Python, Jinja, Flask, Django and REST API development. I am eager to contribute to open-source projects, learn from experienced developers, and actively engage with the programming community.
